1.4 The Nursing Profession

Nursing is an art as well as a science. It is a unique profession within the health care sector focused on the care of individuals, families, and communities. Florence Nightingale was the founder of modern nursing. She laid the foundation of professional nursing with the establishment of her nursing school at St Thomas Hospital, London in 1860. Nurses play a vital role in the health care system of any country whose main goals are to promote healthy lifestyles, prevent diseases, alleviate suffering and rehabilitate individuals that are differently baled. Therefore, most of the countries have strengthened their nursing profession through degree level education and specialization in selected fields of nursing in order to provide effective and efficient health care for the public.

Nursing is identified as a profession based on the criteria that a profession must have.

- a systematic body of knowledge that provides the framework for the profession's practice, standardized formal higher education
- commitment to providing a service that benefits individuals and the community, maintenance of a unique role that recognizes autonomy
- responsibility and accountability
- control of practice responsibility of the profession through standards and a code of ethics
- evidence based practice
- commitment to members of the profession through professional organizations and activities

The nurse's primary professional responsibility is providing nursing care for patients, family and community. Nurses are accountable for facilitating safe and therapeutic environment for the patients, delivering holistic and personalized care, maintaining accurate and up to date records and reports, protecting patient's legal rights and

privacy, maintaining collaborative relationship with other healthcare professionals, working within ethical and legal boundaries, delegating responsibility appropriately, providing health education, focusing on evidence-based practice and contributing to the continuous professional development.

1. As a registered student of the University of Colombo, you are kindly requested to protect and safeguard the reputation of our University. If you are not satisfied with some services, rules/regulations of the university, or staff members, you can communicate your concerns to your counsellors, academic coordinators/tutors, or other officials of the university and seek a feasible solution. Problems cannot be solved by criticizing on social media alone.
2. When you are sharing a post of some other people (friends or third parties) in social media, you must be mindful that such postings may not be correct. If you have participated in false propaganda intentionally or unintentionally, the university may have to take disciplinary action.
3. In social media, people could easily fabricate the truth when posting messages or photographs. Such persons may invite you to participate in a protest campaign using your personal identity and asking you to post contents/share messages or emails to both university officials and outside parties. We kindly advise you to be very mindful when you participate in such activities that can bring disrespect to your university.
4. Every citizen has freedom of speech and expression. However, social media should not be used to attack organizations, groups, or individuals by posting hate speech, sharing critical or sensitive messages written by others, expressing opinions that will create suspicion or social unrest within the wider society. If you have contributed to or assisted in such activities using social media, you would face disciplinary action.
5. It is very important not to disturb academic activities through social media by posting answers for questions or requesting unauthorized assistance from others while engaging in academic activities. For example, sharing answers to assignments/exam paper questions through social media is unacceptable. Such activities may lead to disciplinary action.
6. Some may assume that it is 'safe' to engage in wrongful activities using a bogus identity/account and such a method will protect the actual person. Technology and tools are available to trace the real identity of such persons. Authorities could identify the person, the actual device, and physical location if and when necessary.

Therefore, we strongly advise you not to engage in unauthorized or illegal activities using a bogus identity.

7. If you publish digital contents as the University of Colombo on social media using the University name, logo, or any other university intellectual property such as scanned books, past papers, etc., prior permission from the Registrar's office is required. If you use the University of Colombo Logo, you must follow the Logo guidelines.
8. Your communications in social media must not include offensive or derogatory posts, blogs, images, videos, false rumours or comments relating to gender, ethnicity, race, nationality, disability, reassignment, sexual orientation, religious basis, or those that pose a threat to national security.
9. You are advised to refrain from posting someone else's images, videos, or any other digital contents without proper permission of the original content publisher. You should also not share any copyrighted material without proper approval from the respective publisher(s).
10. It is important to recognize that online conduct is governed by the same laws, policies, and rules of conduct that applies to all day-to-day activities. The University of Colombo urges students to be aware of the potential risks when making personal information public; to think about future implications and possible consequences of all posts, and to ensure safety through responsible and conscious decisions when using social media.
11. It is your responsibility, to protect your social media accounts and for being aware of third-party applications that share your personal information to the public. If you need technical advice that protects your social media accounts, the university IT experts are available to help you here.

Appendix 4: University of Colombo Policy Against Sexual Harassment and Procedural Steps for Enforcement

This Policy provides for the prevention of sexual harassment, and a complaints mechanism for persons affected by sexual harassment. It applies to persons and places that come under the aegis of the University of Colombo.

General Principles

The University of Colombo is committed to maintaining a learning environment and workplace that are free of sexual harassment to all persons, irrespective of gender. Based on the fundamental values of human dignity, gender equality and respect for due process, this policy seeks to spell what sexual harassment means, prevent the occurrence of sexual harassment within the University of Colombo, and provide suitable procedures for inquiring into, and punishing acts of sexual harassment.

In Sri Lanka, sexual harassment is a criminal offence under Section 345 of the Penal Code and is criminalized in the context of Higher Education under Section 2(2) of the *Prohibition on Ragging and All Forms of Violence in Education Institutions Act No 20 of 1998*. Furthermore, the Constitution guarantees the right to equality and equal protection of the law including the prohibition of discrimination on the basis of sex (Article 12 (1) & (2)), and guarantees the freedom to engage in a lawful occupation (Article 14(1)(g)). Sri Lanka's international legal obligations under CEDAW (the Convention on the Elimination of All forms of Discrimination Against Women) and the ILO (International Labour Organization) Convention 111 titled 'Discrimination in Respect of Employment and Occupation' also require the prevention of sexual harassment in the workplace and the provision of remedies for victims of sexual harassment.

1.2. Definition of Sexual Harassment

Sexual Harassment refers to any act (physical, verbal, gestural, visual, tacit or written) that inflicts physical, mental or other harm or annoyance based on another person's gender and/or sexuality. Such acts constitute sexual harassment, which applies when all members of the university community (see 1.4 for persons governed under this policy) engage in any of the above acts. (For examples see Acts Subject to Disciplinary Action – Section 2).

3. Complaints of Sexual Harassment and Procedures

3.1. The Mechanism

The Council of the University of Colombo shall appoint a committee to conduct a preliminary investigation to gather prima facie evidence, and thereafter inquire into complaints of sexual harassment that will, following its inquiry, recommend in appropriate cases disciplinary action to the Vice Chancellor. This committee shall be known as the Committee of Inquiry on Sexual Harassment (CISH). The committee shall comprise ten members, and have gender parity, reflect the diversity of the university community and have at least three external members. All its members should have a proven track record of working on issues of gender equality and equity and be trained to investigate and inquire into cases of sexual harassment. The CISH will also have the authority to appoint mediators in consultation with the Vice Chancellor and the parties concerned, towards an informal resolution process where necessary.

3.2. Who May Complain?

All persons governed by this policy (See 1.4. (i)) shall complain, as well as a visitor to the University and/or a third party who has a personal or professional link to the alleged victim or who has witnessed the alleged harassment (Ex. family member, member of the academic staff, student counsellor).

3.3. The Form of the Complaint and Procedures

(i) A person governed by this Policy may seek resolution through a written or oral complaint to the Vice Chancellor, and/or the Chair of the CISH, and/or the Faculty Grievance Committee. In the case of the complaint of sexual harassment being made to the Vice Chancellor or the Faculty Grievance Committee the latter shall forward it to the Chair of CISH for a preliminary investigation and thereafter where necessary an inquiry.

(ii) Any complaint should be made in writing and signed, or if the complaint is oral, the oral complaint shall be recorded in writing by the authority receiving the complaint (Ex. Rector, Director of Institute, Dean, Head of Department, Student Counsellor, Coordinator of Programs) and signed by the complainant.

(iii) A complainant may seek resolution through mediation and/or formal procedure.

(iv) Such procedures do not in any way prevent the complainant from, at any point, seeking redress under any law that may apply.

3.3.1. Mediation

(i) A complainant may opt for mediation to bring closure to the matter /and or prevent its recurrence. Use of the mediation process in no way precludes the complainant from using the formal adjudicative procedure.

(ii) By this mediation procedure, the complainant formally requests ameliorative action on the part of the accused by a written communication.

(iii) In consultation with the Vice Chancellor, the CISH shall appoint two mediators, acceptable to all parties to the complaint, consisting of one internal and one external member, who should also represent the genders of the parties to the complaint. An observer (non-legal) who represents the interests of each of the parties to the complaint,

and a representative of CISH may be present at the mediation proceedings. The CISH has the responsibility to ensure that the mediation process is carried out in a collegial and non-threatening environment.

(iv) If the mediation procedure is concluded to the satisfaction of both parties the matter is reported to the Vice Chancellor and closed.

(v) Confidentiality should be maintained regarding all complaints. Interview recordings if any, communications, documentations, and reports shall be divulged only to authorized persons.

3.3.2. Formal Procedure

(i) The formal procedure shall be initiated by a party to a complaint through a written communication to the CISH through the Vice Chancellor and/or the Faculty Grievance Committee in the following instances:

(a) Where the mediation process fails (either during its process or at its conclusion) to satisfy either party

(b) Where either party chooses to adjudicate the complaint through the formal process

(ii) Where the Vice Chancellor initiates a formal process at his/her discretion and refers the complaint to the CISH for the same.

(iii) The CISH should complete its preliminary investigation and, if prima facie evidence is found, its inquiry and submit its report and recommendations to the Vice Chancellor within two months of receiving the complaint. The Vice Chancellor shall thereafter, make his or her recommendations on the report and forward it to the Council of the University for necessary action.

(iv) Members of the CISH who serve on the preliminary investigation should not serve on the subsequent inquiry

(v) If the CISH finds that a malicious false complaint has been made, it shall be reported to the Vice Chancellor who shall consider the matter and refer this to the Council of the University for necessary action. However, inability to prove a complaint of sexual harassment should not be designated a false complaint.

(v) The sexual history and/or sexual orientation of the complainant shall be deemed irrelevant to a complaint of sexual harassment at any one given time.

(vi) When any complaint is being considered for resolution, the parties to the complaint shall not be permitted to continue with, or undertake any activity, that can intimidate or unduly influence the complainant to withdraw the complaint or discontinue the process in any way. During this time, the parties shall, in general, be required to maintain minimum contact.

(vii) Nothing in this Policy shall prevent the Vice Chancellor initiating a formal disciplinary procedure in respect of conduct that comes within the scope of this Policy and constitutes grave misconduct for the purpose of disciplinary action under the University Establishment Code.

(viii) Any findings or conclusions arrived at through the procedure do not preclude the application of any law that may apply.
